Päev algas bussisõiduga Ciernohronska rongijaama, kust sõitsime mööda kitsarööpalist raudteed metsa. Seal me õppisime tundma kuuse-kooreüraski poolt kahjustatud metsa, otsisime ja uudistasime surnud puukoore alt antud putukaid ja nende tegutsemisjälgi. Lähemalt tutvustati nende putukate püüdmiseks feromoonpüünist. Pärast seda me tegime nahast medaleid ja õppisime lugema kuuse-kooreüraskeid.

These insects were introduced in more detail for catching in a pheromone trap. After that we made leather medals and we learned to count spruce bark cones.

Alustasime päeva matkamisega Slovak Paradise National Parki. Teine grupp tegi jalutuskäigu järve ääres. Teekond mäetippu oli põnev ja meie jaoks unustamatu. Ronisime üles redelitest ja saime vaadata milline kaunis loodus on Slovakkia mägedes. Mäe tipus tegime lühikese puhkepausi seal oleva hotelli juures, mille ümbruses kasvatakse ka erinevaid loomi.

Meil oli ülimalt põnev päev, mis algas lossi varemetes, kus iga kivi kandis endas lugusid vanadest sõdadest, tuues mineviku elavalt meelde. Järgmiseks suundusime vulkaanilise mäe tippu matkama, kus lisaks füüsilisele pingutusele nägime ka palvepaika, kus saime hetkeks vaikusesse süveneda.

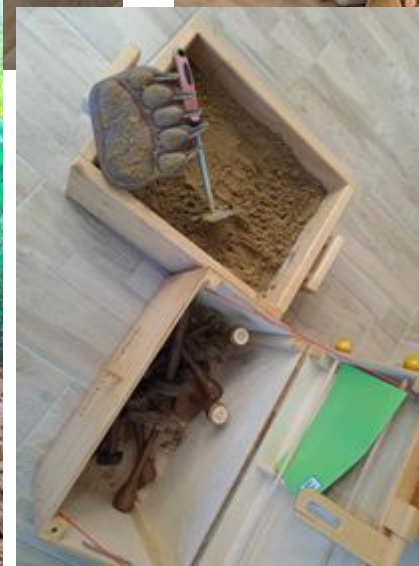

Thursday, April 18, 2024

We had an extremely exciting day that began at the ruins of a castle, where every stone carried stories of old wars, vividly bringing the past to life. Next we hiked to the top of a volcanic mountain, where, in addition to the physical challenge, we saw a prayer site where we could immerse ourselves on silence for a moment.

Levice Metsakoolis õppimine oli tõeline seiklus, kus loomade häälte kuulamine ja töölehe täitmine rikastas meie teadmisi looduse mitmekesisusest. Kõige lõpuks viisime päeva lõpetuseks läbi sõbraliku lasermängu.

Päev algas meil sõiduga kaevandusmuuseumi Stiavnicke Bane'sse. Muuseumis käisime maa all, kus nägime, kuidas vanasti kaevandustes töötati. Kitsad, pimedad ja niisked käigud viisid meid sügavale mäe sisse, pakkudes muljetavaldavat ja õpetlikku kogemust hõbeda ja kulla kaevandusest.

Peale kaevandusmuuseumi külastust suundusime Stiavnica Calvary'sse, mis asub kauni mäe otsas. Barokne kompleks koosnes mitmest kabelist ja lossist, pakkudes suurepärast vaadet ümbruskonnale.

Friday, April 19, 2024

We started the day with a trip to the mining museum Stiavnicke Bane. At the museum we went underground where we saw how mines worked in the old days. Narrow, dark and damp passageways took us deep into the mountain, offering an impressive and educational experience of silver and gold mining.

After a visit to the mining museum, we headed to Stiavnica Calvary, perched at the top of a beautiful hill. The baroque complex consisted of several chapels and castles, offering a magnificent view to the surrounding countryside.

Lõunasööki nautisime privaatkoolis Banska Stiavnicas. Pärast lõunasööki sõitsime botaanikaaeda, kus saime imetleda sekvoiasid ning teisi taimi. Jalutasime mööda varjulisi radu, imetledes ümbruskonda.

Päeva lõpus naasime Levice'i. Õhtul toimus Levice sünagoogis pidulik lõputseremoonia, kus esinesid kohaliku kooli õpilased ning projektis osalejatele jagati tunnistused.

Peale tseremooniat suundusid paljud keeglit ja piljardit mängima, nautides rõõmsalt üksteise seltskonda.

Friday, April 19, 2024

We enjoyed lunch in a private school in Banska Stiavnica. After lunch, we drove to the botanical garden where we could admire the sequoias and other plants. We walked along the shady paths, admiring the surroundings.

At the end of the day we returned to Levice. In the evening, a closing ceremony was held in the Levice synagogue, where students from the local school performed and certificates were awarded to the project participants.

After the ceremony, many went on to play bowling and billiards, happily enjoying each other's company.
